

Open Letter to President Barack Obama, Arizona Governor Jan Brewer, Governor Ted Kulongoski and Members of Congress

A Petition for people of faith and conscience, who oppose Arizona's new immigration law, SB1070.

We, the undersigned, as people of faith and conscience, stand in opposition to Arizona SB1070 and attempts to use fear of immigrants to promote hatred and racism throughout the nation. We further call for real solutions to the problems in Arizona and throughout the nation that have generated support for SB1070 and copycat efforts in other states.

We ask you to support a just and humane immigration reform at the national level based on the following principles:

- Reunification of families
- A pathway to legalization and citizenship
- Protecting the employment rights of workers
- Moratorium on workplace raids and home detentions
- An end to 287g agreements and collusion between ICE and local law enforcement
- Demilitarization of the border
- Ending free trade agreements that force migration
